Task 4069

Mike--

I received your extension request. Understanding that the permit has just been transferred, I will approve the request. Your response to the Division's third review of the Point West mine plan, sent February 9, 2011, will now be due June 11, 2011. I will print this e mail and include it in the file. We will also change our database to allow the extension.

Please make every effort to respond by the due date. As stated in the letter approving the permit transfer, the NOI for this mine has yet to be approved.

Thank you.

Paul Baker
